About Us

Launched in 2022, the B.Com (Computer Application) program bridges commerce and cutting-edge technology. Owing to its strong reception, the program now offers two sections, catering to increased student demand.

With a focus on experiential learning, industry-driven skills, and guided mentorship, it prepares students to excel in finance, IT, and data analytics.

Vision

Envision to provide holistic world class value-based education in the field of commerce with computer applications through interactive learning process with revolutionary vision to transform students into nation builders.

Established
in the
year

2022
